

Getting the right viewing angle with LCD screens with fixed wall brackets is nearly impossible. Now we have an adjustable LCD screen wall bracket, which can tilt and swivel to get the best possible viewing angle. The great feature about this bracket is that it suits any LCD screen which uses the industry standard VESA mount fittings.

\*Suits LCD screens with 75mm and 100mm VESA fittings

\*5kg capacity

Swivel Angle: 120 degrees left & right.
