

DESCRIPTION

Simplecom UM350 Plug and Play USB Desktop Microphone with Flexible Neck and Mute Button

UM350 is a desktop computer microphone which offers an excellent audio quality with clear sound and high sensitivity. It focuses on your voice and ignores surrounding noise, which is ideal for clear audio recording. Compatible with PC and Mac, UM350 is a plug and play USB device for voice recording, internet meeting and chatting.

Simply plug the Microphone into any USB port on PC or Mac, and you're ready to go. It also comes with a mute button and USB interface allows power to be supplied to a LED indicator that lights when mic is active. The microphone is stylish and features a flexible neck for maximum comfort.

Feature

Applicable for online chatting, online meeting or voice recording software

USB connector microphone features high sensitivity compared to traditional 3.5mm jack

Stylish and elegant gloss finish design

Plug and play, no additional driver or power needed

Easily adjustable position with flexible neck

Mute button with indicator that lights when mic is active

Suitable for PC, laptop, Mac with available USB port
